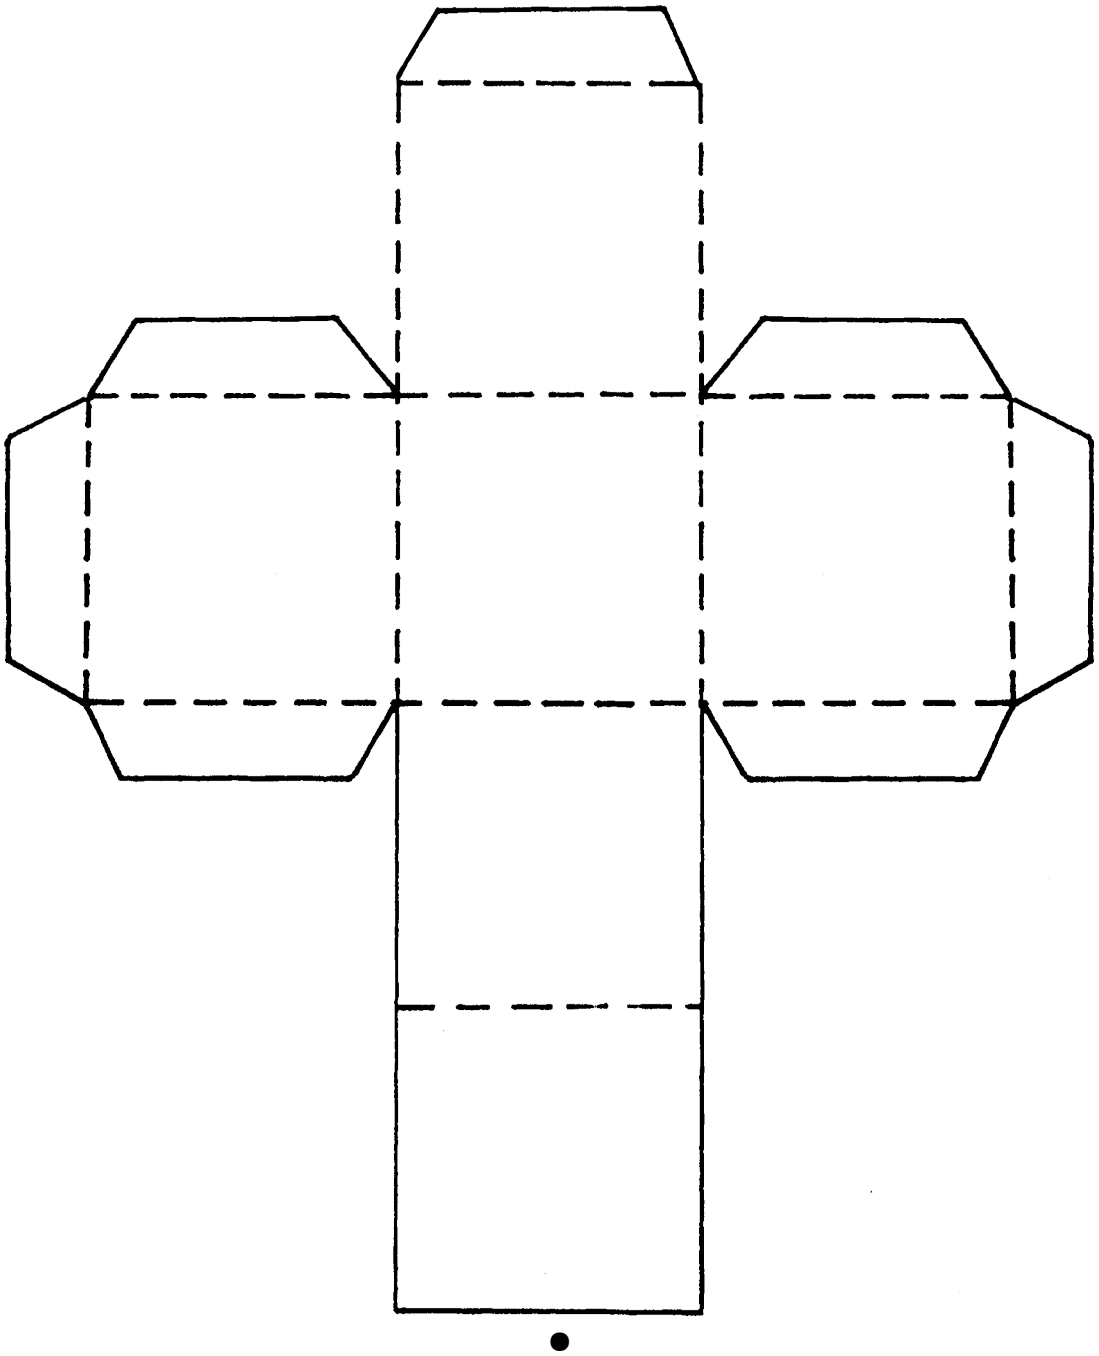
D.I.Y. Cube-a-Kink

By Debbie Roxs

"The Lady Who Put The X in Sex"

Do it Yourself Cube-a-Kink is a printout that adventurous lovers can cut, fold, and glue sort of like orgasmic oragami. The cube can be rolled to play the couple's personalized kinky suggestions on each side of the cube. Create your own sexy escapades by cutting out the template on the solid lines, folding on the dotted lines, and writing exciting things to do on each side of the cube. Use the heaviest stock paper or light-colored cardboard that you have.

Suggestions, Disclaimers and Words of Caution


- Maybe you'll invent Naked Twister on the ceiling.
- Don't blame me if you can't get the oil stains off your walls.
- I'm not responsible if the chandelier breaks and you fall and get hurt.
- Banging on the wall can cause your favorite picture to fall down.
- If you decide to have a screaming orgasm contest and the neighbors call the cops I'd be embarrassed too.
- Who would have thought so many household items can be used for sex? (Stay away from the power tools)
- If you have a fantasy of having sex on top of the TV you should have done it before we all got flat screen TVs
- Remember doing it on a mattress that is sliding down the stairs can be dangerous.
- I don't think it is safe to have sex on a moving motorcycle.
- And last but not least ALWAYS WEAR A HELMET!
