

## Sexy Wake-up Alarm

Get a tape recorder and a blank tape and turn it on when the two of you get turned on. Be very explicit — say everything that is happening and the way it feels; for example:

- I love it when you lick my stomach and caress my nipples.
- I feel my nipples getting hard as you lightly lick them.
- I'm getting hot, and I feel your hard penis throbbing against my body.

As you make love, record the love noises of your climax together. In the morning, set your alarm at least 10 minutes earlier, rewind the tape, and turn it on. When your man hears your orgasm on tape, he will really wake up.
